About ProCabinets

Established in 2012, ProCabinets is MFS Supply's private label cabinet collection. Our stocked offering is designed for large multifamily & single-family projects. Our cabinets are KCMA certified, ensuring a quality-built cabinet that meets funding requirements. Our cabinets are typically shipped assembled, with an option for knockdown if preferred, and we boast a 7-10 day lead time. We also feature a wide range of non-stocking cabinets in additional colors & styles for additional options for your project.

About MFS Supply

MFS Supply began in 2006 as a mechanical lockbox supplier in the property preservation industry. With growth, our offering was expanded to include a wider range of securing products that brought us the attention of real estate agents, property managers, and general contractors. As we built relationships with these new industries, we continued to further our product offering – including adding a cabinet company. With ProCabinets, we were able to really grow our footprint in the multifamily space. We've since expanded into multifamily renovation, multifamily construction, and single-family custom home builder industries. Our product & service offerings continue to grow and change with our customer base.

Why ProCabinets

National Coverage

CLE, ATL, DAL – Our locations are strategically placed & stocked to provide the fastest & affordable shipping to the majority of the continental United States.

250,000 SQFT – With our newly redesigned headquarters in Cleveland, Ohio our operations are bigger than ever to build product more efficiently & ship product faster.

Local Services

PICKUP – Need it fast? Our locations can coordinate with you for a will-call pickup of assembled or flat-packed cabinetry.

LOCAL FLEET – Each of our locations offer local fleet shipping which include additional white glove service offerings.

In-House Sales & Design Teams

IN-HOUSE DESIGN TEAM – Our experienced in-house designers work hard to make your measurements come to life.

SALES & ORDER PROCESSING – Our knowledgeable sales team & order processing team have been taking care of our cabinet customers successfully for years. Let our team help guide your next project.

Full Overlay Lines

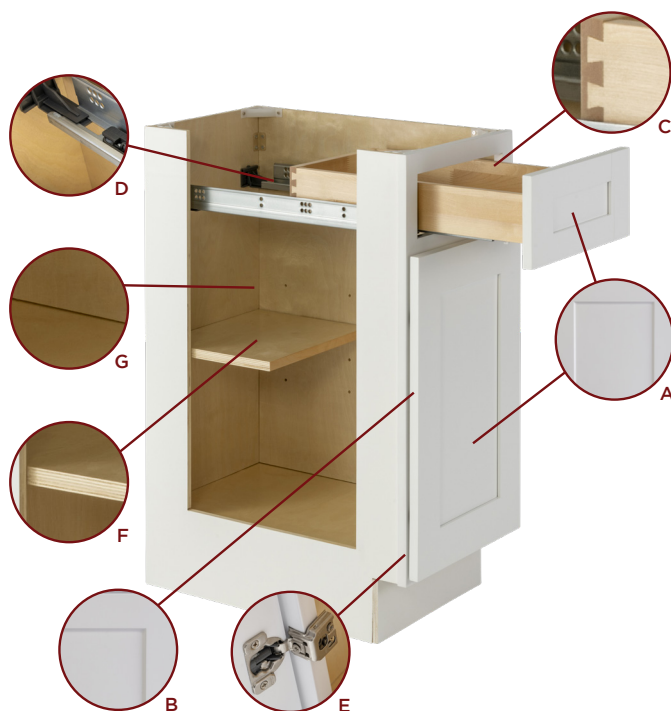

ProWhite Shaker

Our ProWhite Shaker line features timeless Shaker style doors & drawers in a crisp, bright white finish. These painted cabinets bring a clean, classic look to your project. ProWhite Shaker includes all the popular cabinet features including full overlay doors & drawers, soft-close hardware, and strong dovetail box construction. The bright white finish of these cabinets pair well with both neutral or more extreme design choices. The white complements both softer finishes such as light grays, as well as matte black, gold, or even blue. Additionally, our ProWhite Shaker line offers a variety of upgrade options – roll out trays, glass window-pane doors, trash can kits, and more.

The Specs

- A. Shaker style, 5-piece, wide-rail doors & drawers. Full overlay with solid wood rails & stiles. Painted finish
- B. Solid wood face frame 1 1/2" x 3/4" rails & stiles
- C. 5/8" prefinished solid wood, dovetail drawer boxes
- D. Concealed undermount full extension drawer glides with soft-close feature
- E. Soft-close, 6-way adjustable European style fully concealed hinge
- F. Box constructed from 1/2" Grade A plywood with 3/4" Grade A plywood shelving
- G. Natural finish interior

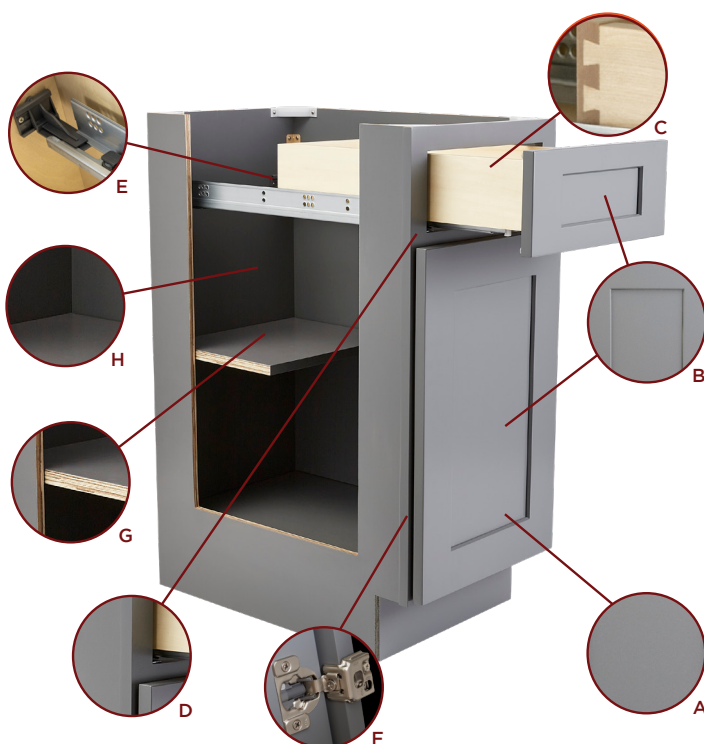

Summit Gray

Our Summit Gray line features timeless Shaker style doors & drawers in a cool, medium gray finish. These painted cabinets bring a clean, modern look to your project. Summit Gray includes all the popular cabinet features including full overlay doors & drawers, soft-close hardware, matching finished interior, and strong dovetail box construction. The cool gray finish of these cabinets pairs well with both light & dark design choices. Brighten your project with white countertops and lighter flooring, or present a more dramatic look with black or even gold finishes.

The Specs

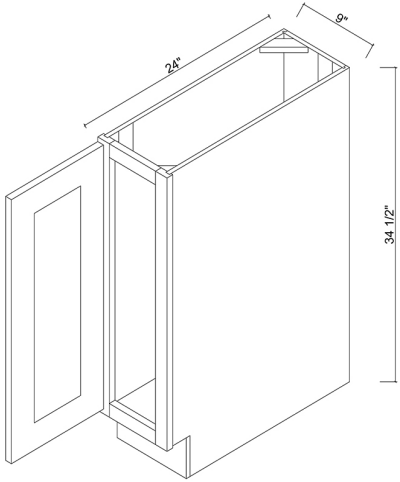

- A.** Cool, medium gray toned painted finish
- B.** Full overlay, Shaker style MDF door & drawer fronts
- C.** Solid wood, dovetail drawer boxes
- D.** Solid wood face frame 1 1/2" x 3/4" rails & stiles
- E.** Under-mount, full extension soft-close glides, stainless steel
- F.** Soft-close, 6-way adjustable, fully concealed European style hinges
- G.** Box constructed from 1/2" Grade A plywood with 3/4" Grade A plywood shelving
- H.** Cabinet interior painted to match exterior

Standard Overlay Lines

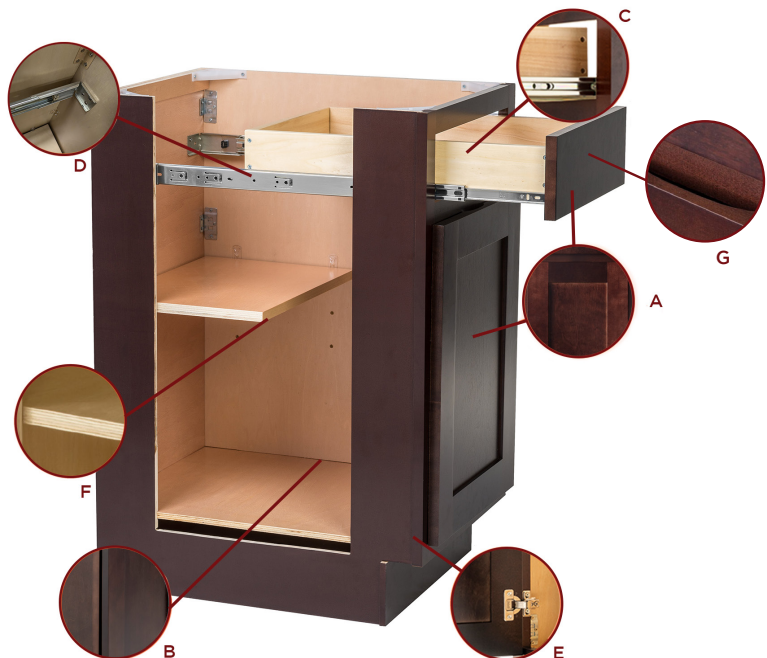

Madison Espresso

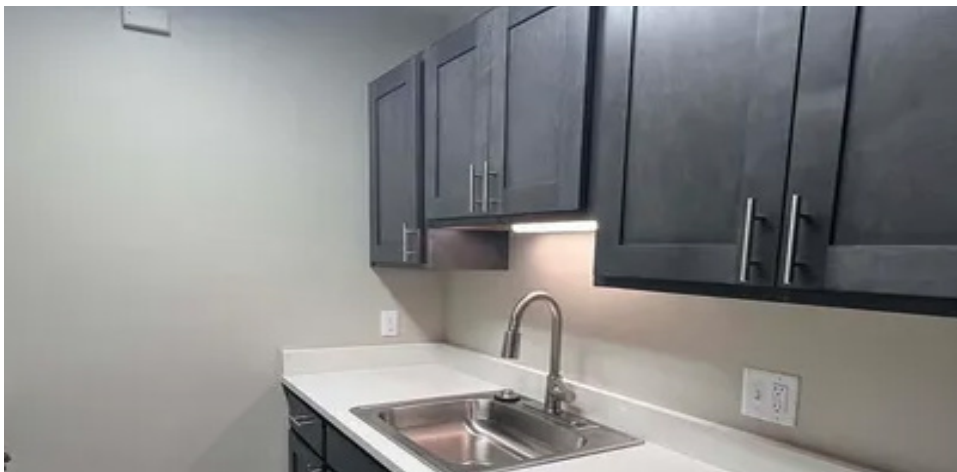

Our Madison Espresso line features Shaker style doors with slab drawer fronts in a deep, warm brown dark stain. These cabinets were designed for high-turn multifamily projects. Featuring a solid-wood build, soft-close hardware, and standard overlay – the Madison Espresso line is an easy install & durable. Save additional time & money with Madison Espresso's built-in door & drawer finger pulls. End users are able to easily open & close their cabinetry without having to install any knobs or pulls on these cabinets. Prefer to utilize knobs or pulls with your project? Brushed nickel looks exceptionally good with deep, warm espresso stained wood grain

The Specs

- A. Shaker style doors with solid wood rails & stiles. Solid wood drawers – slab style top drawers, Shaker style all other drawers
- B. Solid wood face frame 1 1/2" x 3/4" rails & stiles
- C. 5/8" pre-finished solid wood drawer boxes
- D. Side-mount full extension soft-close drawer glides, stainless steel
- E. Soft-close 6-way adjustable, fully concealed, European style hinges
- F. Box constructed from 1/2" Grade A plywood with 3/4" Grade A plywood shelving
- G. Finger grooves on all doors & drawers for easy open

Madison Gray

Madison Gray features a warm, medium tone gray stain – light enough to ensure a visible wood grain for added texture and detail. Warm, brown undertones allow this cabinet to fit into any existing design. This cabinet features a slab drawer with a shaker style door. Including finger grooves on both doors & drawers, eliminating the requirement for knobs & pulls. These cabinets were designed for high-turn multifamily projects. Featuring a solid-wood build, soft-close hardware, and standard overlay – the Madison Gray line is an easy install & durable.

The Specs

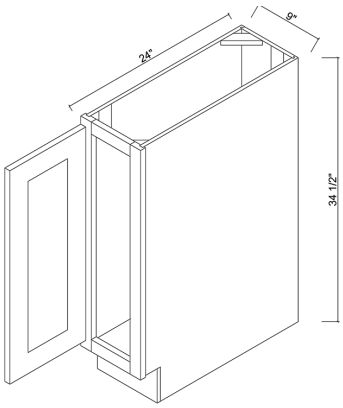

- A. Shaker style doors with solid wood rails & stiles. Solid wood drawers – slab style top drawers, Shaker style all other drawers
- B. Solid wood face frame 1 1/2" x 3/4" rails & stiles
- C. 5/8" pre-finished solid wood drawer boxes
- D. Side-mount full extension soft-close drawer glides, stainless steel
- E. Soft-close 6-way adjustable, fully concealed, European style hinges
- F. Box constructed from 1/2" Grade A plywood with 3/4" Grade A plywood shelving
- G. Finger grooves on all doors & drawers for easy open

Certifications

MFS Supply prides itself on affordable quality products for both single family and multifamily markets. Since its launch, ProCabinets has been certified by the Kitchen Cabinets Manufacturers Association – undergoing strenuous testing of each and every cabinet line to ensure customers are receiving a quality cabinet.

Cabinets undergo extensive testing to achieve the KCMA A161.1 Quality Certification Seal, proving that they are worth choosing for every home. Learn more about the testing process & requirements at Kitchen Cabinet Manufacturers Association.

The Environmental Stewardship Program (ESP) was developed to encourage practices that benefit both the environment and the communities served by cabinet manufacturers. This certification focuses on air quality & pollution prevention, resource sustainability, and waste minimization.

Cleaning Care Guide

Wood Cabinet Surfaces

As with all wood products, avoid excessive moisture. MFS Supply cabinetry is designed for use inside the home or other buildings and is not intended for outdoor applications.

Once your cabinets have been installed, wipe down all exteriors with a damp cloth to remove dust. Complete a small area at a time and wipe dry. Wood cabinetry finishes may be cleaned and protected by using any commercially available cleaning polish. MFS Supply recommends an emulsion-type cleaner (such as Murphy® Original Oil Soap). These are formulated without wax, petroleum solvents or silicones. The extended use of wax polishes can result in a wax film buildup, while the use of silicone polishes can harm the cabinet's finish. Should you experience any minor damage, read up on how to touch up scuffs and nicks on your cabinets.

Cleaning Agents

Avoid spray-type polishes containing petroleum solvents, as they are flammable and toxic if swallowed. Use a damp cloth when cleaning normal household spills. After wiping thoroughly, dry the surface with a lint-free cotton cloth. For stubborn stains, it may be necessary to use a mild detergent with warm water. Always dry the surface immediately. Never use abrasive cleaners, scouring pads or powdered cleansers. Do not allow oven cleaner to touch any part of the cabinet.

NOTE: Do not use a dish cloth to wipe your cabinet exterior, since it may contain remnants of grease or detergents.

Everyday Care

It is important to wipe up spills and water marks as they occur. Give special attention to areas around the sink and dishwasher. Avoid draping damp or wet dish towels over the door of the sink

Care and Cleaning of Hardware

Periodically, use mild soap and warm water to clean door/drawer knobs or pulls. Thoroughly dry all hardware joints and surfaces, and the surrounding area with a clean, soft cloth. Buff hardware with a clean, dry cloth. Lubrication of hinges is not necessary; however, hinges can be cleaned or dusted using cotton-tipped swabs. CAUTION: Many brass and silver polishes contain harsh chemicals that can damage the hardware's surface. These polishes and cleaners are NOT recommended.

Melamine And Thermofoil Surfaces

MFS Supply's exterior and interior melamine and thermofoil panels are extremely durable and designed to give you years of beauty and trouble-free service. They can be cleaned with most nonabrasive household cleaners. However, agents containing acetone, acetate or ethyl alcohol should not be used. Harsh solvents and/or abrasives such as turpentine may break down bonds on edgebanding and should also be avoided. Ammonia cleaners should be diluted. Certain waxes may lead to discoloration and are not recommended. If a damp cloth does not sufficiently clean an area, a nondetergent, nonabrasive household cleaner (such as Murphy® Original Oil Soap) is recommended. For stubborn stains, use mineral spirits (such as Nature-Sol).

IMPORTANT NOTE: Apply solvents to a clean cloth and never directly to the cabinet surface. Never leave a cloth moistened with solvents on a cabinet surface for any length of time.

Avoid Excessive Heat

Self-cleaning appliances generate intense heat during a cleaning cycle. Since the integrity of the appliance seal or gasket may be compromised during installation or with age, MFS Supply recommends the removal of doors and/or drawers from cabinets adjacent to or directly above an appliance during a cleaning cycle. This will help prevent possible damage to the finish or

Care and Cleaning of Glass Door Inserts

If your kitchen contains cabinetry accented with glass doors, a few precautions are necessary. Apply glass cleaner to a towel, not directly to the glass. Avoid cleaner contact with lead, white-, gold- or copper-clad mullions. Camed glass inserts may be gently buffed with 0000 steel wool, as this will not scratch glass. Avoid steel wool buffing of joints on gold-, copper- or white-clad mullions, as this will remove the coating. White mullions can be protected by coating with carnauba wax, available at local hardware or automotive stores. CAUTION: Cloths used to clean camed glass inserts should be laundered separately. Do not mix with clothing.

A Note on Wood Products

All the different pieces of wood that come together to form a cabinet have unique whirls, knots, and textures. In lighter colored stains, these variations can be easier to notice. While the birch hardwood used to build our cabinetry has been carefully selected & reviewed, imperfections are part of the natural beauty of a wooden cabinet.

Painted wood is a classic style in cabinetry. Due to the natural expansion & contraction of the wood, painted wood surfaces can develop hairline cracks, especially around the joints.

When utilizing natural products such as wood, natural imperfections can occur.

Order Processing & Payment

- All existing customers can contact their sales representative directly to begin a new cabinet order. New customers begin the process by calling our team at **(800) 607 – 0541**.
- Full payment is required before an order will be processed, except for term customers. This includes backorders and approved written add-ons.
- To apply for terms, see our application under [“Additional Resources”](#).
- Payment can be made by credit card (5% processing fee on orders over \$5,000), ACH, check (requires at least 2-3 days waiting period for funds to clear), or cash.

- Once the order is in process, no changes can be made. Additional items can be processed as a new order.
- Cancellations after the order is picked is subject to a restocking fee. Orders cannot be cancelled

Pick Up Order

- Orders are only available for will call pickup if that is the method of delivery that was selected at the time of order placement.
- Our order processing team will communicate to you when your order will be available for pickup. Please call Customer Service at **(800) 607 – 0541** to verify your order is ready before you arrive.

Shipping & Delivery

- The majority of cabinetry orders are shipped either FTL or LTL. Local business around our Ohio, Texas, or Georgia locations may utilize our local truck fleet.
- For a step-by-step guide to receiving FTL & LTL shipments, see [“Additional Resources”](#).
- If items are missing or shorted at delivery, please inform MFS Supply within 24 hours or less. We will contact the carrier.
- After receiving a delivery, report any concealed/hidden damage that couldn't be seen at time

Return Policy

- Special order products, custom products, modified products, installed cabinetry, all countertops, and cabinets assembled outside of MFS Supply are not eligible for return.
- To initiate a return, contact our Customer Service department at customerservice@mfssupply.com or **(800) 607 – 0541** to obtain a Return Authorization Number **(RAN)**. All returns are subject to a restocking fee .
- Returns will be accepted within thirty **(30) days** of delivery, in their original packaging & original condition.
- Customer is responsible for all shipping & handling on returns.
- Accepted returns will result in a refund to the customer of the purchase price less the original shipping, handling, and delivery costs.
- Refunds are processed approximately ten **(10) business** days of MFS Supply's receipt of return and will be credited back to the same payment method used to make original purchase.
- You can find our full Return & Exchange Policy under [“Additional Resources”](#).
