

# PROWHITE SHAKER

**PRO**CABINETS

## ProWhite Shaker

Our ProWhite Shaker brings timeless Shaker-style cabinetry in a classic white painted finish to your property or project. With soft-close hardware and a full overlay design, these wood cabinets are made to last.

## ProWhite Shaker

Our cabinets are assembled at one of our three warehouses across the United States. This ProWhite line includes all the popular features including full overlay doors & drawers, soft-close hardware, and strong dovetail drawer box construction. Upgrade your project by exploring our offering of cabinet accessories including roll-out trays, glass window-pane doors, and trash can kits. By utilizing a bright white cabinet in your space, you can allow your flooring, counter tops, or other features to stand out, complemented by the neutral cabinet color.

### Build & Construction

Our cabinets are built at one of our three warehouse across the United States. Our builders undergo rigorous training to ensure each cabinet is built with care. A scanning system is utilized by our entire warehouse team to monitor your order from start to finish. Our QC team combs through each order for accuracy & quality.

### Certifications

**A161.1 Quality Certification** - Cabinets undergo extensive testing to achieve this certification. The structural integrity & strength of the cabinets are tested in a lab by a 3rd party team.

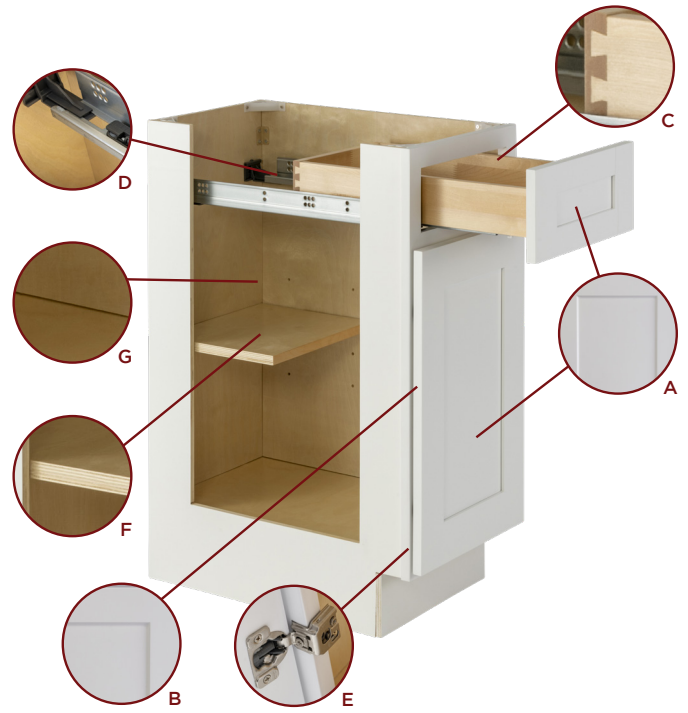

**Environmental Certification** - The Environmental Stewardship Program was developed to encourage practices that benefit both the environment & communities served. MFS Supply re-applies annually for each of these certifications.

### ADA Cabinets

Each of our cabinet lines features a wide range of fully stocked cabinets that meet ANSI specifications for use in units designated as adaptable or ADA. We offer a full selection of **32.5" height base cabinets**, two designs of a **removable front vanity** to accommodate a variety of bathroom layouts, and a **floating vanity** with plumbing shields.

## The Specs
